MATHEMATICS- WORKSHEET - 2026-27

TOPIC: MULTIPLES AND FACTORS

CLASS: V

I. Fill in the Blanks:

1. The smallest multiple of a number is ____.
2. The HCF of two coprime numbers is always ____.
3. Two prime numbers that differ by 2 are called ____ prime numbers.
4. The HCF of two numbers can never be ____ than either of the numbers.
5. The LCM of two numbers is always ____ than or equal to each of the numbers.
6. A number divisible by both 3 and 5 is always divisible by _____.

II. Write True or False:

1. Every number is a factor of itself.
2. The number 1248 is divisible by 4.
3. A prime number has exactly two factors.
4. Every multiple of 5 ends in 5 only.

III. Solve the following:

1. Find the smallest missing digit to make the number 62 _ 178 divisible by 9.
2. Find the HCF of 144, 216 and 288 by short division method.
3. Find the HCF of 96, 144 and 192 by long division method.
4. Find the LCM of 60, 72 and 90 by short division method.
5. The HCF of 12 and 18 is 6. Find their LCM.
6. Find the HCF and LCM of 48 and 32. Compare their product HCF and LCM with the product of the given numbers.

7. The LCM of two numbers is 60 and their HCF is 5. If one number is 15, find the other number.
8. Two numbers have $\text{HCF} = 6$ and $\text{LCM} = 72$. If one number is 18, find the other number.
9. The product of two numbers is 240 and their HCF is 4. Find their LCM.
10. Find the smallest number that is divisible by 8, 12 and 18.
11. Find the greatest number that divides 36, 60 and 84 exactly.
12. A teacher has 24 red pencils and 36 blue pencils. She wants to make identical sets using all the pencils, with the same number of red and blue pencils in each set. What is the greatest number of sets she can make?
13. Three traffic lights change at intervals of 20 seconds, 30 seconds and 45 seconds. If they change together at a particular moment, after how many seconds will they change together again?
14. A shopkeeper has pencils packed in groups of 4 and erasers packed in groups of 6. What is the smallest number of pencils and erasers he needs so that both can be packed into complete groups?
